// cat bitcoin.pdf

9

pages

“Bitcoin: A Peer-to-Peer Electronic Cash System.” Shared on a cryptography mailing list on 31 October 2008.

// git log --since=2008

> From a PDF to a profession.

01 **2008**

The whitepaper is published

02 **2009**

The genesis block is mined, 3 January

03 **Today**

Whole careers in protocols, security, DeFi and infrastructure

// poll

> Have you read it end to end?

Comment A, B or C. Honesty welcome.

A Yes, more than once

B I've skimmed the abstract

C It's been on my list for years

// ./whats-next

> Building on what came next?

We help Web3, crypto and AI teams hire the people who build. Exploring your next move? Talk to us.
